## **Multi-use trail near Bismarck Expressway bridge to close for construction work Aug.17**

The North Dakota Department of Transportation (NDDOT) will close the multi-use trail crossing the Bismarck Expressway Bridge and the nature trail underneath the bridge on Aug. 17 to complete construction work in the area. Construction work on the trail area includes replacing the existing fence, railing and expansion joints. The project is expected to be completed in October.

Pedestrian and bike traffic should use the Memorial Bridge trail as an alternate route. Signing will be in place at the Expressway trail head markers indicating the closure of the multi-use trail and the Memorial Bridge trail will be posted as an alternative route.
